The Spanish Clinical Language and Resource Guide has been created to enhance public access to information about mental health services and other human service resources available to Spanish-speaking residents of Hennepin County and the Twin Cities metro area. While every effort is made to ensure the accuracy of the information, we make no guarantees. The inclusion of an organization or service does not imply an endorsement of the organization or service, nor does exclusion imply disapproval.

Under no circumstances shall Washburn Center for Children or its employees be liable for any direct, indirect, incidental, special, punitive, or consequential damages which may result in any way from your use of the information included in the Spanish Clinical Language and Resource Guide.
In 2012, Washburn Center for Children, Kente Circle, and Centro collaborated on a grant proposal to obtain funding from the Hennepin County Children’s Mental Health Collaborative to help the agencies improve cultural competence in services to various client populations, including Spanish-speaking families. These funds allowed Washburn Center’s existing Spanish-speaking Provider Group to build connections with over 60 bilingual, culturally responsive mental health providers from numerous Twin Cities mental health agencies and private practices. This expanded group, called the Hennepin County Spanish-speaking Provider Consortium, meets six times a year for population-specific trainings, clinical and language peer consultation, and resource sharing.

Under the grant, Washburn Center’s Spanish-speaking Provider Group agreed to compile a clinical language guide, meant to capture and expand on our group’s “¿Cómo se dice...?” conversations. As the Consortium proved to be an invaluable tool for resource sharing, it became clear that we should capture that information as well. What appears in this document are our best efforts to record the language and resource information we obtained during this grant period.

We are grateful for our language consultants Maria Cervantes, Mauricio Cifuentes, and Justo Garcia. Our experience of getting three different “definitive” answers on how best to say or explain something, which sometimes included what another consultant had told us not to say, demonstrated the diversity of the countries and cultures where Spanish is spoken. It also reinforced our collective experience of how translating the word is often just the beginning when building a shared understanding with our clients.

Many thanks go to the Consortium members who provided feedback and updated information about their practice locations. The resource information included here reflects the most current information we had at the time of this printing. While the agencies included here offer much more than is listed, we chose to only include services provided in Spanish to make the guide as succinct and helpful as possible. Please contact us if you would like your information updated or added to the electronic version of this guide. The guide will be updated every six months and is available online: www.washburn.org/spanishclinicalguide.

We are extremely excited to share this information with you. We hope you find this guide helpful, and we welcome your feedback.

Sincerely yours,

Elizabeth Franklin, MSW, LICSW

Roles

Case Manager  
coordinador/a del caso/de casos

Clinical Social Worker  
trabajador/ora social clínica o en el ámbito clínico

Good explanations for the difference between psychologists and social workers:

• Los psicólogos se enfocan más en lo que pasa adentro de una persona o en la parte interior (sentimientos o emociones, pensamientos, antecedentes)

• Los trabajadores sociales en el ámbito clínico se enfocan en eso pero también prestan mucha atención en lo que pasa entorno o en el medio ambiente, alrededor de la vida de una persona, mientras que exploran la parte interior

• Nosotros tratamos de entender lo que está pasando ahora en tu vida para poder identificar factores de estrés; creemos que eso nos ayude enfrentar la parte interior más efectivamente

Children’s Mental Health Case Management
Supplemental Information

Children’s Mental Health Case Management (CMHCM) services help assess client service needs; arrange additional mental health services, social services, educational services, and other community-based supports; coordinate services to clients across settings; and help ensure client and family participation in identified services. Children may receive CMHCM until the age of 18, or until 21 if still involved with special education services.

To be eligible for CMHCM services, children must have a mental health diagnosis listed in the DSM-5 and fulfill at least one of the criteria for a Severe Emotional Disturbance (SED) listed below:

• Admitted within last three years or at risk of being admitted to inpatient treatment or residential treatment
• Minnesota resident receiving inpatient treatment or residential treatment through interstate compact
• Child has one of the following as determined by mental health professional:
  ◦ psychosis or clinical depression
  ◦ risk of harming self or others
  ◦ symptoms resulting from being a victim of physical or sexual abuse or psychic trauma within the past year
  ◦ Child has significantly impaired functioning (home, school, or community) that has lasted at least one year or that in the written opinion of a mental health professional presents risk of lasting at least one year

In Hennepin County, uninsured children, children with straight Medical Assistance, or children with commercial insurance plans must be assessed for services by Hennepin County Front Door (612-348-4111). Children with PMAP insurance plans may be assessed for services by staff at any of the agencies identified as providing CMHCM services.

In Ramsey County, all children must be assessed by Ramsey County Children’s Mental Health. Providers can find referral paperwork at https://www.ramseycounty.us/residents/health-medical/clinics-services/mental-health/child-mental-health

To expedite the assessment process, be sure to indicate that your client meets SED criteria and recommend CMHCM services as medically necessary in the recommendations section of your Diagnostic Assessment. The Diagnostic Assessment needs to be less than 180 days old at the time of referral. For additional information about accessing Children’s Mental Health Case Management, please contact your client’s county of residence.
Children’s Therapeutic Services and Supports (CTSS) Services Supplemental Information

Children’s Therapeutic Services and Supports (CTSS) services are therapeutic and rehabilitative services designed to treat mental health conditions which are limiting a client’s ability to function in age- and developmentally-appropriate ways. CTSS services are meant to help clients regain levels of functioning which had deteriorated due to their mental health difficulties, or to diminish delays in their development caused by their experience of mental health problems. CTSS goals are accomplished through psychotherapy, skills training, and crisis assistance, and at times also through day treatment, therapeutic preschool, and/or mental health behavioral aide services.

In order to expedite a client’s assessment for CTSS services, their Diagnostic Assessment must include a comprehensive DMS 5 diagnostic formulation and state that CTSS services are medically necessary. The Diagnostic Assessment must be less than 180 days old at the time of the referral for services. Clients may be referred directly to a CTSS provider for their initial evaluation for services.

Additional information regarding CTSS service components and eligibility can be found on the Minnesota DHS website: [www.dhs.state.mn.us](http://www.dhs.state.mn.us)

Progressive Individual Resources, Inc

- In-home therapy services are available to all clients who fit the age and insurance coverages identified in the Therapeutic Services Chart. No geographical restrictions for referrals.

Crisis Stabilization Services

Crisis Stabilization Program, Washburn Center for Children

- Ages 3-17
- Residents of Hennepin, Ramsey, and Dakota Counties
- Program only bills Medica, Health Partners, and Blue Cross Blue Shield plans (PMAP and commercial plans)
- Program works intensively with children and families to prevent out-of-home placement and/or psychiatric hospitalization
- Therapists work with families, school staff members, and other mental health providers to achieve increased stability across settings
- Program includes 24-hour on-call support
- Program usually works with clients for eight to 12 weeks

Hennepin County Mobile Crisis: (612) 348-2233

- Program staff will provide on-site risk assessment, help to de-escalate crises, develop a plan to keep the child safe at home, and offer resources and referrals
- Telephone consultation and stabilization services are also available.

High Fidelity Wraparound Services, FamilyWise

- Service is intended to prevent out-of-home placement for youth being considered for placement in correctional facilities or residential treatment facilities.
- Clients must be referred by Hennepin County, Ramsey County, or Washington County staff or community-based providers.
- As part of the program, the family identifies needs, goals, and steps to achieve those goals, and increases its support network by identifying specific people in the community who can help.
- A FamilyWise Wraparound Facilitator works with the family and team members involved in the plan to follow up on goals.

Neighborhood House

Skills for School

Program works with children ages 3-5 to develop the skills they will need to enter kindergarten. The program has classroom-based and home visiting components. The classroom curriculum touches on critical areas of development and fundamental knowledge for pre-school aged children. Through songs, stories, rhymes and conversation the children naturally improve their language skills, develop great social skills, and learn core concepts such as colors, numbers, and letters. Multi-cultural, multi-lingual classrooms are located at both Neighborhood House’s Wellstone Center and Homecroft School locations. Home visiting component helps parents develop strategies to support their children’s continued development and prepare them to enter school successfully. Ramsey County and Dakota County families or providers can call for more information (651) 789-2500.

Northside Achievement Zone (NAZ)

2123 W. Broadway Ave., Ste 100, Minneapolis (612) 521-4405

NAZ Academic Navigators are “scholar coaches” located onsite at partner schools. Navigators provide one-on-one academic support to students. Academic Navigators work with scholars to set and achieve academic goals and connect them with extra supports, such as behavioral health support and academic after-school and summer programs. NAZ serves families living in North Minneapolis between 35th Avenue N, West Broadway, I-94, and Penn Avenue.

PACER Center

8161 Normandale Blvd, Bloomington (952) 838-9000

Advocates work with parents and school staff to ensure that students receive the supports need to be successful regardless of physical or cognitive disabilities or mental health/emotional difficulties. Spanish-speaking advocate on-staff.
Way to Grow
125 W. Broadway Ave, Ste 110, Minneapolis  (612) 874-4740

Great by Eight Program
Program is facilitated through home visits, center-based programming and connection to resources and includes early childhood and elementary education support, health and wellness education, teen parenting support and parent engagement.

Way to Grow Family Educators work with parents to stabilize their families and connect them to basic needs services, meeting them where they are and helping move them forward. Family Educators also help parents build the skills needed to be their children’s first teachers and support their learning at home once they begin school. Spanish-speaking Family Educators are available.

El Camino
El Camino es un programa bilingüe que se provee a niños latinos semanalmente durante el año escolar después de la escuela y que también ofrece una programación de verano para ayudarles a desarrollar sus capacidades, y actitudes y comportamientos positivos acerca de sí mismos, sus familias y comunidad. El propósito del programa es desarrollar niños más saludables y fuertes quienes serán menos vulnerables a influencias y comportamientos negativos durante su adolescencia.

Programa de Jóvenes Latinos
El Programa de Jóvenes Latinos provee grupos semanalmente durante el año escolar para jóvenes de 12 a 18 años de edad en las ciudades gemelas. Incluye un programa de liderazgo, programación durante el verano y actividades especiales para ayudar a los adolescentes latinos a desarrollar sus capacidades, actitudes y comportamientos positivos en las áreas de educación, sobre ellos mismos, su familia, y la comunidad.

Latino Power
El Programa de Juventud Latino Power, aprobado por el Jefe del Departamento de Inclusión del Gobernador de Minnesota, fue lanzado en el verano de 2017. Este programa capacita a los estudiantes para fortalecer sus habilidades de liderazgo, convertirse en miembros activos de la comunidad y crear un impacto significativo en su comunidad. El programa Latino Power se enfoca en crear oportunidades de liderazgo dinámico y práctico para preparar a los estudiantes para su carrera profesional deseada. Los estudiantes organizan un proyecto comunitario como parte de su entrenamiento durante el programa. A lo largo del programa, los estudiantes se conectan con los líderes comunitarios y las partes interesadas, planifican la logística para eventos y desarrollan materiales profesionales.

Young Professionals
The Young Professionals program works to eliminate the barriers faced by young Latinos to complete their high school education, pursue their college education, and prepare them for work that leads to a career. The Young Professionals curriculum has three modules, Ethics and Values: Cultural Competence; Education with a Focus: Training Future Leaders; and Job Search: Exploring your Career.
Neighborhood House
Jovenes Con Palabra
For young men ages 13-18. Program offers space for young men to learn basic life skills and discuss various concerns in a safe environment. Participants often engage in new experiences such as fishing, dance performances, plays, and camping. Group meets Thursdays 6-8 pm at Neighborhood House’s Wellstone Center location (179 Robie Street E, St. Paul). Those interested can contact Chacho at 651-789-2574 or just show up on a Thursday.

Kids Connect
For youth in grades K-5, Kids Connect combines daily enrichment and tutoring services to impact the lives of children and subsequently their families and community. With the guidance from the Neighborhood House staff, kids will receive academic support and gain social and emotional learning. Through creative partnerships with community advocates, youth will also gain new experiences with art, theatre, and sports. Monday-Thursday, 5:30-8:30 p.m. For more information, contact Chris Gustafson at 651-789-2561.
