

Options for Financial Assistance with your Washburn Bill

At Washburn Center for Children, we are committed to making sure that a child's care continues even if their family faces changes in insurance coverage or financial resources. Families have two options to receive financial assistance if experiencing challenges with paying their Washburn Center balances:

- **Sliding Fee/Adjusted Payment Plan Application:** You may apply for financial assistance. Your completed application helps us determine whether you qualify for a reduced rate based on your household's financial resources.
- **Approved Payment Plan:** If you don't qualify for a discount or you choose to pay out-of-pocket, you can manage the cost over time by setting up a payment plan via our [online payment portal](#).

How the Sliding Fee/Adjusted Payment Plan process works

Once you submit your completed Sliding Fee Form, [your eligibility is reviewed](#) and one of the following options will apply if you qualify:

- The approved discount is applied to your services, and you will be placed on a payment plan for any remaining balance. The discount is applicable for one year from the date the funding need begins and can be re-authorized with a new application at that time.
- If no discount is applicable, you will be placed on an approved payment plan.

Follow processes on the "financial assistance" tab at washburn.org/pay-your-bill to apply.
